

As a lifelong creative, **Vernicia Respres** understands the power of representation and access to the arts. In 2018, she founded **BRUSHED**, a luxury art studio and gallery, to provide a **beautiful, inclusive space** for guests to learn, shop, create, and host private events. Over the years, she has expanded her reach by offering **virtual and live art services**, making a lasting impact well beyond Georgia.

This evolution allowed Vernicia to **thrive during the pandemic**, connecting with isolated and underserved communities through art. Since then, she has grown into a **renowned fine artist**, been selected for a **Netflix show**, and launched her own **streaming network, Brushed TV**.

Vernicia specializes in **fine art services**, including **live wedding painting, luxury event art, and curated art for tradeshow and commercial spaces**. She has also collaborated with **churches, nonprofits, and businesses** to provide **custom artwork, interactive experiences, and community-based art initiatives**. Her work extends to **interior design partnerships**, helping businesses and event spaces elevate their environments with thoughtfully curated art collections.

Her dedication to the arts and community has earned her recognition as the **Women of Impact Arts & Culture Honoree** by the **National Coalition of 100 Black Women, Northwest Georgia Chapter**.

Through custom artwork, interactive experiences, and digital innovations, Vernicia’s mission remains the same: to **inspire people of all ages to explore their creativity and pursue their dreams—regardless of financial or geographical barriers**.
